

I changed my mind and would like to come back for my pet. What do I do?

The intake surrender form states: "I understand that I do not have the right to redeem the animal(s) without meeting the adoption criteria of SHS and paying all applicable adoption fees."

Please contact adoption staff should you be interested in taking your pet back in. The pet must be altered, microchipped, vaccinated, and given all age-appropriate testing before adoption. This includes heartworm testing and behavior testing.
